---

## EDUCATION

### University of North Carolina at Chapel Hill

Chapel Hill, NC

Statistics and Computer Science B.S.

Aug. 2023 - May 2027

- **Minor:** History
- **GPA:** 3.69
- **Selected Coursework:** DSA, Probability, Optimization, Methods of Data Science, Stochastic Modeling

---

## EXPERIENCE

### Future Analytics Star

Jan. 2026 - Present

National Basketball Association

- Selected as one of 50 candidates from 2500+ to participate in the NBA's Future Analytics Stars Program.
- Developing a Python-based project to create new defensive metrics from NBA player tracking data.

### Incoming Technology Intern (Chief Data Office)

May 2026 - Aug. 2026

Wells Fargo

- Incoming technology intern in Wells Fargo's Chief Data Office, focusing on data engineering and analytics.
- Expected to contribute to data governance, ETL pipelines, and cloud-based data systems.

### Data Analytics Intern

May 2025 - Jul. 2025

Aspida Financial Services LLC

- Streamlined automated ETL workflows utilizing R, improving data load speed by 50%.
- Improved memory & CPU usage by 25% by automating Power BI Data Refreshes using REST APIs.
- Collaborated on various JIRA tickets to design & implement cross-functional Power BI dashboards.

### President of Hockey Operations & Fundraising Chair

Mar. 2025 - Apr. 2026

UNC Ice Hockey

- Managed all club operations including travel logistics, scheduling, and budgeting for 30+ athletes & staff.
- Secured \$300K+ in funding through partnerships with our booster club and UNC's Sports Club leadership.
- Led & organized all fundraising & marketing campaigns to increase community engagement & outreach.

### Performance Data Analyst

Mar. 2024 - Present

UNC Women's Soccer

- Collected & analyzed training & game data to evaluate player performance using Excel & Power BI.
- Built an interactive Power BI dashboard providing real-time player rankings & team metrics.
- Contributed to the program's 23rd national title and first since 2012 in my first season with the team.

---

## PROJECTS

### Predicting English Premier League Soccer Matches | *Python, Pandas, Scikit-learn*

Dec. 2024

- Created a Random Forest Classifier with 70% success rate in predicting Premier League match outcomes.

### Stock Market Prediction Model | *Python, yfinance, Pandas, Scikit-learn*

Nov. 2024

- Created a Random Forest Model utilizing historical data from the S&P 500 to predict price increases.
- Informs consumers about decisions regarding trading within the S&P 500 for the following day.

### Isolating Diabetic risk factors | *Python, Pandas, Seaborn, Scikit-learn*

Oct. 2024

- Utilized Random Forest modeling and Synthetic Minority Over-sampling Technique (SMOTE) to balance data and created a model with more than 70% accuracy in predicting diabetic status in CDC dataset.

---

## SKILLS

- **Languages:** Python, C, SQL, R, Java, HTML
- **Developer Tools:** Visual Studio, IntelliJ, Git/GitHub, JupyterLab, PostgreSQL, SSMS, Docker
- **Other:** Power BI, Tableau, PowerPoint, Excel, Leadership, Organization, Finance, Marketing
- **Interests:** NY Sports, Harry Potter, Star Wars, Running, Cooking, War History
